10. Shoreline response
11. Safety Issues
12. Waste Management
13. Media & PR
14. Terminating the response

**Maritime &
Coastguard
Agency**

Additional Information:

This course is mostly classroom based where delegates will work in teams through a spill scenario on managing a large incident. Practical equipment demonstrations may be carried out dependent on the course location. Course can be carried out on client's premises based on a minimum number of delegates attending.
